

**Zirax took part in The Annual Technical Symposium and Exhibition (ATS&E) in Saudi Arabia**

Zirax (further referred to as Zirax or Company), one of the global leaders in manufacturing and supplying of commodity and specialty chemicals for worldwide customer database took part in one of the key oil & gas exhibition – The Annual Technical Symposium and Exhibition- that took place in Dhahran in May 2018.

ATS&E gives an opportunity to present and learn about the newest technologies with industry leading companies. It promotes the exchange of knowledge, innovative ideas and showcases of the latest technologies in the oil & gas industry, facilitating ideas and seizing opportunities. This event has gained remarkable significance; not only locally, but even both regionally and internationally.

Zirax alongside with POLYEX and ENPAV are one of the major producers of CaCl<sub>2</sub>, stimulation and production chemicals and surfactants that are widely used in oil and gas production and services. Company's portfolio starts from well killing and going further into well production stimulation modelling, enhanced oil recovery chemicals engineering, fracturing and water shut-off chemicals manufacturing, logistics & supply and supervision of chemical injections, as well as post-injection surveys and consultancy. Combination of engineering center, labs, service units and three production sites located in Russia also allows to supply tailor-made solutions which will suit required well conditions to all customers worldwide. Commenting participation at ATS&E, Zirax CEO Mikhail Petrushin said: "It is really good that we could attend that exhibition, because we always seek an opportunity to meet client directly, so we will be able to supply the most suitable chemical solution or establish a new recipe. Nowadays oil and gas companies are looking for alternative solutions for their current tasks as well as new challenges in all production areas. We, as developers and manufacturers of such solutions, are not only doing and supplying required solutions, but as a scientific group are developing new technologies for current and future tasks that will occur in oil and gas production. With a manufacturing facility located in Saudi Arabia we will minimize logistics and production time, so our best know-how technologies will get to our customers as soon as possible".

**About Zirax:**

Zirax LLC, manufacturer and supplier of specialty chemicals to diverse global customer database, among of which there are oil service and oil exploration companies, as well as companies specialized on winter roads maintenance and exploration.
