

NEWS RELEASE

23 October 2020

The British Association for Chemical Specialities (BACS) has recently accepted Zirax as a member.

BACS www.bacsnet.org is a trade association for companies operating in the speciality chemicals sector of the chemicals supply chain. Members include chemical manufacturers, ingredient suppliers, product formulators, distributors, retailers and service providers. In particular, BACS reflects members' interests by providing updates on biocides, personal care, surfactants, water treatment and health, safety and environmental legislation relevant to the speciality chemical sector.

Zirax is a speciality chemicals manufacturer with a core production focus on calcium chloride, used in a number of industry sectors and supplied to a global customer base. Zirax also produces surfactants at the facilities of NIIPAV, which is a wholly-owned subsidiary. The surfactants have a broad range of applications and are used in the production of household products, personal hygiene and cosmetics, disinfection and sanitation, the oil and gas industry and in road construction. A full list of surfactants is available at www.zirax.com.

About Zirax:

Zirax is a manufacturer of specialty chemicals based on Calcium Chloride supplied to customers worldwide. Zirax production facilities are located in Russia and in the Middle East. For more information visit www.zirax.com.
